Version Number 1.3 Page 1 of 16 Revision Date 10/31/2025 Print Date 11/01/2025

# SAFETY DATA SHEET

## **M36447 LC RED**

## **Section 1. Identification**

**GHS product identifier** : M36447 LC RED

Chemical name: MixtureCAS number: MixtureOther means of identification: FO20051724

**Product type** : solid

Relevant identified uses of the substance or mixture and uses advised against

**Product use** : Industrial applications. Plastics.

Supplier's details : AVIENT CORPORATION

33587 Walker Road, Avon Lake, OH 44012

1 (440) 930-1000 or 1 (844) 4AVIENT

**Emergency telephone number** 

(with hours of operation)

CHEMTREC 1-800-424-9300 (24hrs for spill, leak, fire, exposure or

accident).

## Section 2. Hazards identification

OSHA/HCS status : While this material is not considered hazardous by the OSHA Hazard

Communication Standard (29 CFR 1910.1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for employees and

other users of this product.

Classification of the substance or

mixture

Not classified.

**GHS** label elements

Signal word : No signal word.

**Hazard statements**: No known significant effects or critical hazards.

**Precautionary statements** 

Prevention: Not applicable.Response: Not applicable.Storage: Not applicable.

1/16

## M36447 LC RED

Version Number 1.3 Page 2 of 16 Revision Date 10/31/2025 Print Date 11/01/2025

**Disposal** : Not applicable. **Hazards not otherwise classified** : None known.

**Hazards identified when used** : No known significant effects or critical hazards.

# Section 3. Composition/information on ingredients

**Substance/mixture** : Mixture

**Chemical name** : M36447 LC RED **Other means of identification** : M36447 LC RED

| Ingredient name | Synonyms                              | %          | Identifiers    |
|-----------------|---------------------------------------|------------|----------------|
| Quartz (SiO2)   | crystalline silica, respirable powder | > 0 - <= 1 | CAS: 14808-60- |
| (3.3.1)         |                                       |            | 7              |

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

## Section 4. First aid measures

#### Description of necessary first aid measures

**Eye contact**: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get

medical attention if irritation occurs.

**Inhalation** : Remove victim to fresh air and keep at rest in a position comfortable

for breathing. Get medical attention if symptoms occur. In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical

surveillance for 48 hours.

**Skin contact**: Flush contaminated skin with plenty of water. Remove contaminated

clothing and shoes. Get medical attention if symptoms occur.

**Ingestion**: Wash out mouth with water. If material has been swallowed and the

exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical

personnel. Get medical attention if symptoms occur.

#### Most important symptoms/effects, acute and delayed

## M36447 LC RED

Version Number 1.3 Page 3 of 16 Revision Date 10/31/2025 Print Date 11/01/2025

#### Potential acute health effects

**Eve contact** No known significant effects or critical hazards. Inhalation No known significant effects or critical hazards. Skin contact No known significant effects or critical hazards. **Ingestion** No known significant effects or critical hazards.

#### Over-exposure signs/symptoms

**Eve contact** No specific data. Inhalation No specific data. **Skin contact** No specific data. **Ingestion** No specific data.

#### Indication of immediate medical attention and special treatment needed, if necessary

In case of inhalation of decomposition products in a fire, symptoms Notes to physician

may be delayed. The exposed person may need to be kept under

medical surveillance for 48 hours.

**Specific treatments** No specific treatment.

**Protection of first-aiders** No action shall be taken involving any personal risk or without

suitable training.

See toxicological information (Section 11)

## **Section 5. Fire-fighting measures**

#### Extinguishing media

Suitable extinguishing media In case of fire, use water spray (fog), foam, dry chemical or CO<sub>2</sub>. Unsuitable extinguishing media None known.

Specific hazards arising from the

chemical

No specific fire or explosion hazard.

Hazardous thermal decomposition

products

May emit Hydrogen Chloride (HCl). Decomposition products may include the following materials:, carbon dioxide, carbon monoxide, nitrogen oxides, sulfur oxides, halogenated compounds, metal

oxide/oxides

Special protective actions for fire-

fighters

Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

Special protective equipment for

Fire-fighters should wear appropriate protective equipment and self-

## M36447 LC RED

Version Number 1.3 Revision Date 10/31/2025

For non-emergency personnel

Page 4 of 16 Print Date 11/01/2025

fire-fighters

contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

## Section 6. Accidental release measures

#### Personal precautions, protective equipment and emergency procedures

No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment.

For emergency responders: If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See

also the information in "For non-emergency personnel".

Environmental precautions : Avoid dispersal of spilled material and runoff and contact with soil,

waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil

or air).

## Methods and materials for containment and cleaning up

Small spill : Move containers from spill area. Vacuum or sweep up material and

place in a designated, labeled waste container. Dispose of via a

licensed waste disposal contractor.

Large spill : Move containers from spill area. Prevent entry into sewers, water

courses, basements or confined areas. Vacuum or sweep up material and place in a designated, labeled waste container. Dispose of via a

licensed waste disposal contractor.

# Section 7. Handling and storage

#### **Precautions for safe handling**

Protective measures Advice on general occupational

hygiene

Put on appropriate personal protective equipment (see Section 8).

: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

Conditions for safe storage, including any incompatibilities

: Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and

## M36447 LC RED

Version Number 1.3 Revision Date 10/31/2025 Page 5 of 16 Print Date 11/01/2025

drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

# Section 8. Exposure controls/personal protection

#### **Control parameters**

## Occupational exposure limits

| Ingredient name | Exposure limits  |  |
|-----------------|--|--|
| Quartz (SiO2)   | OSHA PEL Z3 (1997-09-03). [Silica, Crystalline Quartz non-                 |  |
|                 | respirable]  |  |
|                 | TWA 8 Hours: 30/ (%SiO <sub>2</sub> +2) mg/m <sup>3</sup> Form: Total dust |  |
|                 | OSHA PEL Z3 (2016-06-23). [Silica, Crystalline Quartz                      |  |
|                 | respirable powder]   |  |
|                 | TWA 8 Hours: 10/ (%SiO <sub>2</sub> +2) mg/m <sup>3</sup> Form: Respirable |  |
|                 | TWA 8 Hours: 250/ (%SiO <sub>2</sub> +5) mppcf Form: Respirable            |  |
|                 | CAL OSHA PEL (2018-05-16). [silica, crystalline - quartz]                  |  |
|                 | TWA 8 hours: 0.05 mg/m3  |  |
|                 | OSHA PEL 1989 (1989-03-01). [Silica, crystalline quartz (as                |  |
|                 | quartz), respirable dust]  |  |
|                 | TWA 8 hours: 0.1 mg/m3 (Calculated as Quartz) Form: Respirable             |  |
|                 | dust   |  |
|                 | OSHA PEL (2016-06-23). [Silica, crystalline]                               |  |
|                 | TWA 8 hours: 50 μg/m³ Form: Respirable dust                                |  |
|                 | NIOSH REL (2010-09-01). [SILICA, CRYSTALLINE (AS                           |  |
|                 | RESPIRABLE DUST)] See Appendix A - NIOSH Potential                         |  |
|                 | Occupational Carcinogen.   |  |
|                 | TWA 10 hours: 0.05 mg/m3 Form: Respirable dust                             |  |
|                 | ACGIH TLV (2005-12-09). [Silica, crystalline] A2.                          |  |
|                 | TWA 8 hours: 0.025 mg/m3 Form: Respirable fraction                         |  |
|                 |  |  |

#### **Biological exposure indices**

No exposure indices known.

**Appropriate engineering controls**: Good general ventilation should be sufficient to control worker

exposure to airborne contaminants.

**Environmental exposure controls** : Emissions from ventilation or work process equipment should be

checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers,

filters or engineering modifications to the process equipment will be

Page 6 of 16

## M36447 LC RED

Version Number 1.3 Revision Date 10/31/2025 Print Date 11/01/2025

necessary to reduce emissions to acceptable levels.

#### **Individual protection measures**

**Hygiene measures** Wash hands, forearms and face thoroughly after handling chemical

products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety

showers are close to the workstation location.

Safety eyewear complying with an approved standard should be used **Eye/face protection** 

> when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a

higher degree of protection: safety glasses with side-shields.

**Skin protection** 

**Hand protection** Chemical-resistant, impervious gloves complying with an approved

standard should be worn at all times when handling chemical products

if a risk assessment indicates this is necessary.

Personal protective equipment for the body should be selected based **Body protection** 

on the task being performed and the risks involved and should be

approved by a specialist before handling this product.

Appropriate footwear and any additional skin protection measures Other skin protection

> should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this

product.

Based on the hazard and potential for exposure, select a respirator that Respiratory protection

> meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper

fitting, training, and other important aspects of use.

## Section 9. Physical and chemical properties

The conditions of measurement of all properties are at standard temperature and pressure unless otherwise indicated.

#### Appearance

#### Other adverse effects

No known significant effects or critical hazards.

## **Section 13. Disposal considerations**

## Disposal methods

: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.
